Release of 'SCCN Guidelines' and 'Carbon Neutral University Campus' initiative

Aniket S Kelkar and Yashwant S Kelkar adopted Banyan and Chafa Trees in the memory of their daughter, Late Anandi Aniket Kelkar at Smritivan - Warje, Pune. Ajinkya A

Kelkar, brother of Late Anandi took the entire responsibility of the adoption. The family also showed a thoughtful gesture by doing bone burial instead of bone immersion (which is a hin-

du ritual). The family believes that the life of Late Anandi will be rooted in the tree to nurture it.

TERRE Olympiad Award Ceremony

On 16th January 2019, the fourth edition of TERRE Olympiad (2018-2019), the National level online environment-based quiz competition was celebrated with the grand Award ceremony in Dr. Sarabhai Puli audio KV2 Cantt, Delhi.

Hon. Mr. Prakash Javadekar, Minister of Human Resource Development, Government of India, graced the event as a chief guest and awarded the students and schools in various categories. TERRE Olym-

piad 2018-19 was supported by TATA Motors and Symantec Solutions.

Dignitaries from Partner organization and National Academies were also present on the dais such as Mr. Vinod Kulkarni (TATA Motors CSR Head), Mr. Deepak Maheshwari (Symantec Director, Government Affairs – India, ASEAN & China), Mr. Santosh Kumar Mall (Kendriya Vidyalaya Sangathan Commissioner), Mr. Bishwajit Kumar Singh (Navodaya Vidyalaya Samiti Commissioner) and Dr.

Embrace and Enhance the Earth's Beauty.

Don't litter on roads, don't throw plastics in ocean and keep the surroundings clean.

She (The Earth) should feel very special on Valentine's Day!!

- Dr. Vinitaa Apte
Founder Director TERRE

Vinitaa Apte (Founder Director TERRE Policy Centre)

"We have started this Olympiad in the year 2015 with a small number of participation, but it is now becoming one of

the popular online quiz. In the year 2019, we are certainly going to cross our geographical boundaries and build strong association with neighbouring countries through Olympiad," said Dr. Vinitaa Apte. "It is our

honor to have Hon. Minister HRD Mr Prakash Javadekar as a Chief Guest for the award ceremony right from the 1st year of TERRE Olympiad," she added.

"To overcome environmen-

tal issues like natural disasters, pollution and climate change, our youth needs to be motivated for sustainable lifestyle and choices. This would encourage

them in developing eco-solutions by using their imagination, intelligence and creativity for sustainable future. For this, there has definitely been an im-

pressive growth in environmental sensitivity among them. Students should be environmental ambassadors”, said Mr. Prakash Javadekar

ISSUE 2

After the grand Success of TERRE Olympiad 2018-19,
TERRE policy Centre is launching now

“TERRE Olympiad - For Teachers”

in collaboration with Earth Day Network.

EARTH DAY NETWORK

“TERRE Olympiad for Teachers” will also be a National Level online environment awareness based Quiz Competition, which will be conducted on a fixed day of every month for next 18 months. The Exam format of this Olympiad will be similar to TERRE Olympiad for schools. After the teachers’ registration, each teacher will receive unique ID and password to login the exam portal, where he/she will

have to solve 10 MCQ environment-based questions in 5 min. Each question will contain 2 marks and teacher with minimum 18 marks in minimum time will be selected as the winner of month. Winner will be awarded with certificate and an online shopping voucher worth INR 750-1000.

TERRE Olympiad for Teachers will be conducted on TERRE Policy Centre’s official website :

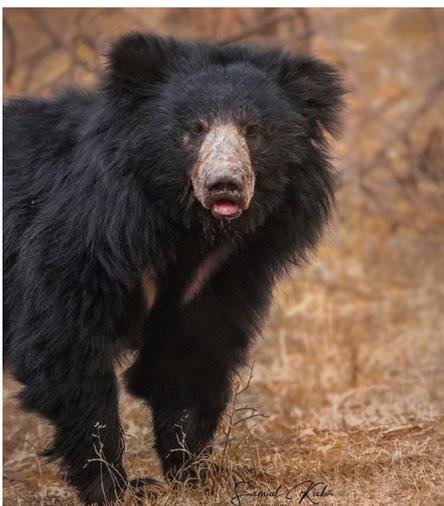

www.terrepolicycentre.com
from February 2019 to July 2020.

For any queries regarding the above competition please contact us :

terrepolicycentre@gmail.com

Contact: 020-25448650

Sloth Bear (*Melursus ursinus*)

been called labiated bear because of its long lower lip and palate used for sucking insects. Compared to brown and black bears, the sloth bear is lankier, has a long, shaggy fur and a mane around the face, and long, sickle-shaped claws. It evolved from the ancestral brown bear during the Pleistocene and through convergent evolution shares features found in insect-eating mammals.

Due to climate change this year winters in Maharashtra feels like Kashmir !!

PC Dhanraj Garad

The sloth bear (*Melursus ursinus*) is an insectivorous species native to the Indian subcontinent. It is listed as Vulnerable on the IUCN Red List, mainly because of habitat loss and degradation. It has also

MORE WILD WEATHER IN A WARMING WORLD

A new report from the Intergovernmental Panel on Climate Change shows that climate change will lead to **higher temperatures, heavier precipitation, intensified drought and stronger storms**. And the more we continue to pollute, the worse things will get.

HEAVY PRECIPITATION

We'll likely see a **GREATER NUMBER** of storms that dump even more precipitation – whether rain or snow – at a time. This is one factor that increases the risk of flooding.

DROUGHT

Experts believe droughts could **INTENSIFY** in particular seasons and areas, like central North America. In addition to posing humanitarian risks and damaging economies, drought is a significant contributor to wildfires.

Small Act, Green Impact

Set your thermostat a few degrees lower in the winter and a few degrees higher in the summer to save on heating and cooling costs.

Question of the Month

Which among the following is key faunal species that is being conserved and monitored in 'Dachigam National Park' ?

- [A] Musk Deer
- [B] Golden Oriole
- [C] Yellow-throated Marten
- [D] Hangul or Kashmir Stag

If you know the answer, send us at terrepolicycentre@gmail.com
